QOMS Salivary Gland Cancers registry

Clinical questionnaire

Item
Demographics and risk factors
Patient's NHS / CHI number
Sex
Date of birth
Age
Postcode
History of radiation therapy to head and neck
History of previous salivary gland cancer
Family history of salivary gland cancer
Presentation
Is the disease presentation a primary or a recurrent/metastatic tumour?
Date of diagnosis or MDT discussion
Date of recurrence
Location of primary / recurrence tumour
Cranial nerve deficit
Skin involvement
Imaging
Diagnostic tissue sampling
Taxonomy (suspected following FNAC/Biopsy, based on WHO Classification)
Pre-operative histology
Histological grade
Clinical T stage
Clinical N stage
Clinical M stage
Treatment
Was the treatment provided the ideal treatment recommended by the MDT?
Performance status
Where is the surgery taking place
Date of surgery
Details of excision surgery
Lymphadenectomy / neck dissection
Postoperative histology
Taxonomy (Final histology based on WHO Classification)

Histological grade
Pathologic T stage
Pathologic N stage
Location of involved/positive lymph nodes
Closest margin (mm)
Lateral margin (mm)
Deep margin (mm)
Bone invasion
Depth of invasion / tumour thickness (mm)
Ki-67/MB1
HER2
Androgen receptors
MYB rearrangement
MAML2 rearrangement
ETV6 rearrangement
Any other immuno-histochemical tests
Any other molecular tests
Other immune-histochemical tests and results
Other molecular tests and results
Other histological features present
Lymphovascular invasion
Perineural/intraneural invasion (PNI)
Postsurgical treatments
Radiotherapy intent, modality, technique
Was neo-adjuvant treatment required?
Neoadjuvant agents, cycles and response
Concurrent agents, cycles and response
Biological agents, cycle, response
Hormonal therapy, cycle, response
Follow-up
Date of follow-up
Patient's status
Recurrence
Date of diagnosis of recurrence
Treatment

Patient-reported outcome tool: University of Washington Quality of Life Questionnaire (UW-QOL v4)

Items
PROM
Date
Pain
Appearance.
Activity.
Recreation.
Swallowing.
Chewing.
Speech.
Shoulder.
Taste.
Saliva.
Mood.
Anxiety.
Which issues have been the most important to you during the past 7 days?
General Questions
Compared to the month before you developed cancer, how would you rate your health-related quality of life?
In general, would you say your health-related quality of life during the past 7 days has been…
Overall quality of life includes not only physical and mental health, but also many other factors, such as family, friends, spirituality, or personal leisure activities that are important to your enjoyment of life. Considering everything in your life that contributes to your personal well-being, rate your overall quality of life during the past 7 days
Please describe any other issues (medical or non medical) that are important to your quality of life and have not been adequately addressed by our questions
