### **UK National Flap Registry (UKNFR)**

#### **UKNFR Counts on 27 May 2020**

Total Procedures: 6824

Surgeons actively entering data in UKNFR: 211

Hospitals Using UKNFR: 111

#### First UKNFR report

- UKNFR First Report, funded by BAPRAS, was published on 4 December 2019.
- 2. The report was received to wide acclaim by ICOPLAST and other national plastic surgery societies.
- 3. 200 copies of the glossy hardback report have been distributed to Chief Executives and key stakeholders.

#### **Covid-19 Impact**

- 1. With the onset of Covid19, flap numbers entered into UKNFR have fallen significantly, as a result of priority 3 and 4 surgery including breast reconstruction being halted in March. Flaps currently being performed are for H&N oncology reconstruction (priority 2) and Lower/ upper limb trauma (priority 1).
- 2. **Covid-related data entries have been added into UKNFR** in the last few days, to enable data collection regarding swab positivity pre-operatively, at discharge and the incidence of development of Covid19 in the post-operative period. This should help us to monitor if peri-operative outcomes are more adversely affected in the *Covid-negative* vs. *Covid-positive* groups.
- 3. Monthly case numbers dropped to an all-time low of 54 in the month of April. Cases are expected to increase in the future months as the NHS moves into the recovery / restoration phase. However, these are unlikely to reach levels seen in 2019.
