

Change in Audit Lead

I will take this opportunity to thank Anita for her many years of dedication in helping to set up the UKNFR and make it what it is today.

COVID-19 has presented a real challenge for flap/microsurgeons and I am sure that you all retain a strong desire to ensure that practice remains safe, reliable and effective. In my tenure as UKNFR Audit lead I hope to support you all in being able to demonstrate the efficacy of your members practice. To this end; over the coming weeks, I hope to be able to engage with all Speciality Association leads and better understand how the UKNFR can support their members.

Should anyone wish to contact me then please email me: peter.kalu@nhs.net

Find the first of my bimonthly reports to you all.

UKNFR Counts on 01 July 2020

Total Procedures: 6906

Surgeons actively entering data in UKNFR: 213

Hospitals Using UKNFR: 113

First UKNFR report

UKNFR First Report, funded by BAPRAS, was published on 4 December 2019 and can be accessed <u>here</u>.

Covid-19 Impact

- 1. With the onset of Covid19, flap numbers entered into UKNFR have fallen significantly. Flaps currently being performed are for H&N oncology reconstruction (priority 2) and Lower/ upper limb trauma (priority 1). The prioritisation of Breast reconstruction is under active review and updated Royal College guidance is awaited.
- 2. Covid-related data entries have been added into UKNFR to enable data collection regarding swab positivity pre-operatively, at discharge and the incidence of development of Covid19 in the post-operative period. This should help us to monitor if peri-operative outcomes are more adversely affected in the Covid-negative vs. Covid-positive groups.
- 3. Monthly case numbers dropped to a low of 28 in the month of May but have begun to increase 76 performed in June. These numbers will almost certainly increase as recovery of surgical services and Breast reconstruction come back on-stream.
