CONTINUING PROFESSIONAL DEVELOPMENT (CPD)

This scientific meeting aims to provide attendees with the opportunity to gain up to date knowledge on the latest developments in research, audit, education, surgical techniques, clinical patient management and outcomes in the field of oral and maxillofacial surgery.

This is delivered through seminars led by experts in their field, masterclasses and short papers presenting the latest research and developments.

Participants should verify their own attendance record out of the maximum hours available, which have been calculated as follows:

Wednesday 28 June	CPD hours	5.25
Thursday 29 June	CPD hours	6.25
Friday 30 June	CPD hours	6.25

CERTIFICATES OF ATTENDANCE

Certificates of attendance indicating the CPD hours for the elements of the meeting booked by the attendee will be sent by email after the conference.

SIGNING THE ATTENDANCE REGISTER

In order to meet the requirements of verifiable CPD attendees should sign in at the Registration Desk on each day that they attend the conference. BAOMS is required to keep this attendance record on file in order for CPD hours to be considered verifiable. Your cooperation is much appreciated.

EVALUATION FORMS

The provision and holding on file of delegate evaluation forms is another requirement of verifiable CPD. Please ensure that you complete the form which is included in your delegate pack and either hand it in at the Registration Desk or send it to the BAOMS Office immediately after the meeting. Your cooperation is much appreciated.

STEPHEN DOVER BAOMS PRESIDENT 2017

I look forward to welcoming you to the 55th annual conference of the British Association of Oral and Maxillofacial Surgeons at the International Conference Centre (ICC) in Birmingham's city centre on Wednesday 28th – Friday 30th June. The theme of the conference is 'Opportunities and Challenges'. I hope to inspire the consultants of the future to look at the full scope of our speciality when considering their careers.

There are three pre-conference events with a limited number of places:

A two day cadaver workshop has been organised by Liviu Hanu-Cernat on Monday 26th and Tuesday 27th June. It will be based in the Surgical Training Centre, Coventry, and is sponsored by Stryker. The course is heavily subsidised and will include aspects of aesthetic facial surgery, orbital access, tm joint approaches including access to the condyle and condylar neck fractures, exposure of the upper facial skeleton via a coronal flap, calvarial bone harvesting and management of the frontal sinus.

Straumann are sponsoring a one day oral implantology workshop, to be held in Birmingham on Monday 26th June. The course will include pre-operative assessment including CAD/CAM techniques for implant positioning and surgical guide production, surgical approaches and techniques, a practical workshop with a variety of implant designs and an introduction to more advanced grafting techniques.

Another one day implant course will be held on Tuesday 27th June, in Birmingham. The course will be led by Rob Banks and focusses on the more advanced techniques in oral implantology. The topics will include the use of 'All on Four' type reconstructions of the edentulous jaws, sinus floor grafting, localised ridge augmentation and the use and placement of zygoma implants. There will be practical workshops for delegates to gain hands on experience of the equipment and implants.

The conference starts on Wednesday morning 28th June. My colleague Andrew Monaghan will be delivering the President's lecture on 'The Evolving Management of Vascular Anomalies'. There is a national shortage of surgeons willing to take on these challenging patients and therefore a real opportunity to develop and deliver a service. Throughout the three days there are international speakers from America, Australia, India, Germany and Portugal, along with established UK experts, presenting keynote lectures on trauma management, facial deformity including cleft and craniofacial conditions, aesthetic surgery, paediatric maxillofacial surgery, reconstructive techniques including distraction, implantology, cranioplasty and tm joint surgery. There will be an update on Getting It Right First Time and a report on DFTs in OMFS.

Recruitment of trainees into surgery is currently a significant challenge. Time has been set aside to discuss how best to manage this within our own specialty, including a debate on the need for, and alternatives to, two degrees. Sat Parmar will chair the session.

Research has long been under-represented within OMFS. I have asked Professor Richard Shaw to present on the opportunities for clinical research in today's NHS. Three who have done this will follow him, present their research and comment on the challenges that they have faced. I hope that this session will inspire others to follow in their footsteps.

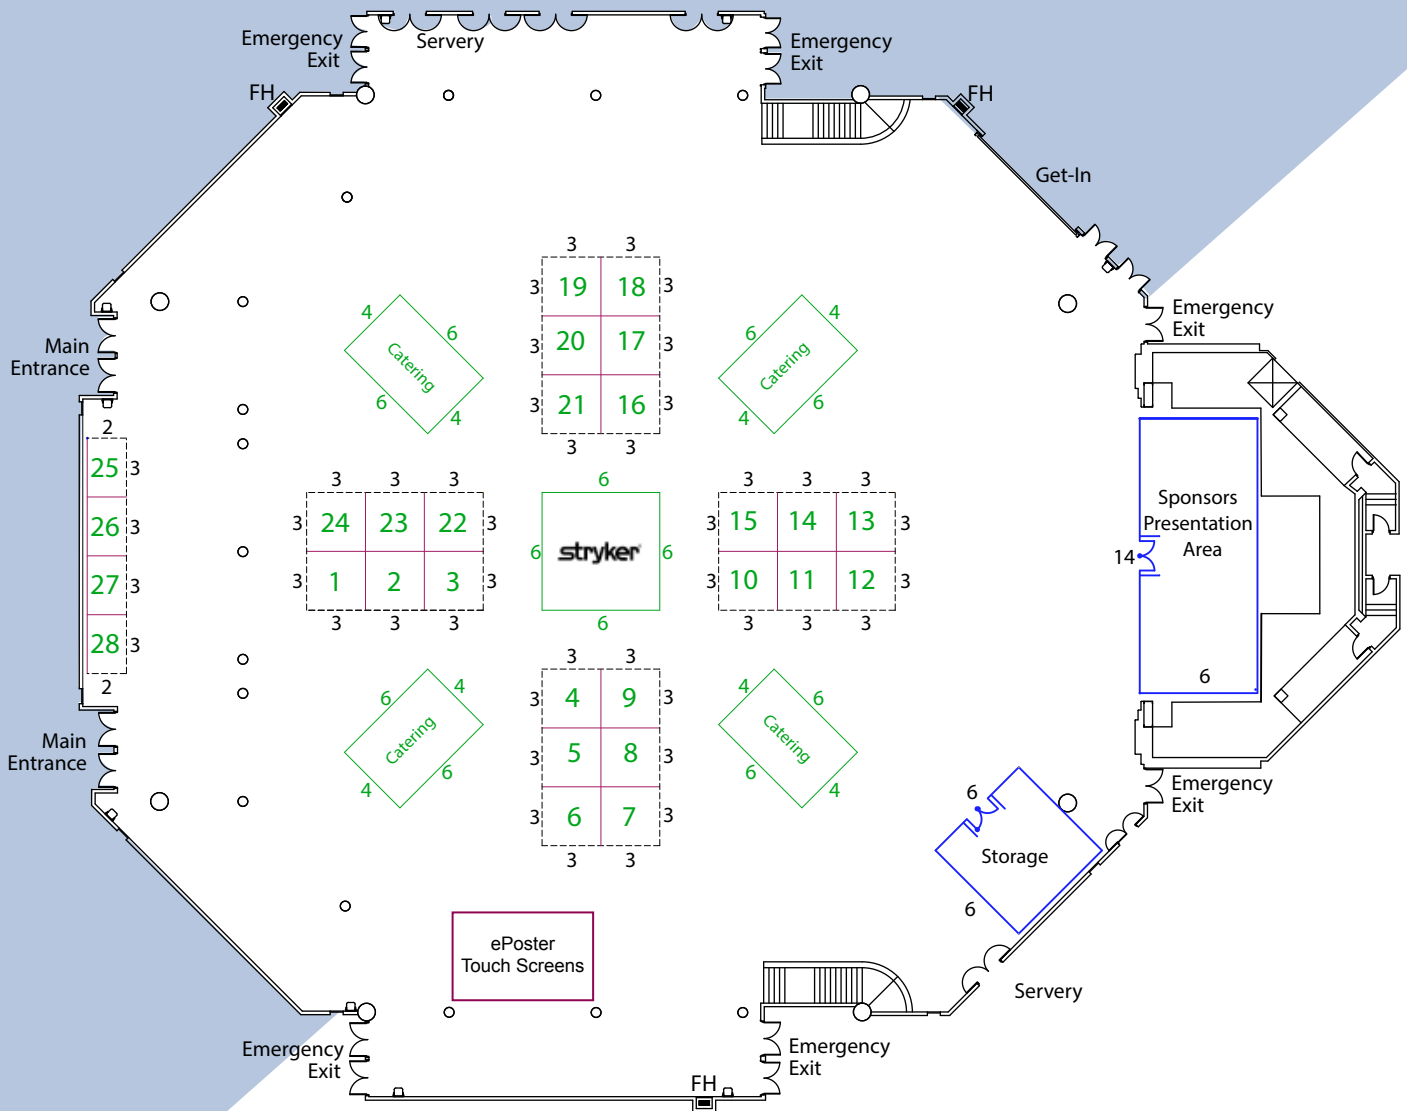

The Norman Rowe Lecture will be delivered by Professor Sir Keith Porter, Professor of Clinical Traumatology at the Queen Elizabeth Hospital, Birmingham. He will discuss how care of the critically injured in armed conflict has influenced civilian practice.

The social programme begins on the Wednesday evening with the President's reception in the ICC. Entertainment will be in the form of a Caribbean Steel Band. The annual black tie dinner will be in the Birmingham Town Hall on Thursday 29th June. This is a Grade I listed concert hall that stands in the city centre; it is walking distance from the ICC. Subject to demand, we are also hoping to operate a Cr ch  during the main meeting. Please email office@baoms.org.uk before May 2, 2017 for information.

I hope that this gives you a flavour of what to expect in Birmingham and that it will encourage you to register and contribute to the event. I look forward to welcoming you to the ICC in June.

TWO DAY PRE-MEETING COURSE – Monday 26 and Tuesday 27 June 2017

‘Operative techniques and surgical approaches in maxillofacial surgery with fresh frozen cadavers’

Lead clinician: **Mr Liviu Hanu-Cernat**, Consultant Maxillofacial Surgeon, University Hospital, Coventry and Warwickshire

Monday 26 and Tuesday 27 June 2017. Two day cadaveric dissection course aimed at specialist trainees. Supported and run by Stryker – the Platinum sponsor for BAOMS Annual Meeting 2017. 14 CPD hours allocated by BAOMS for full attendance. (Limited to 24 attendees). West Midlands Surgical Training Centre, University Hospitals Coventry and Warwickshire, Coventry CV2 2DX.

Faculty to be confirmed. Fresh frozen cadavers and all instruments and equipment included. Daytime catering included. Overnight accommodation not included.

Outline programme

Monday 26th June 2017

- 0800 Registration and coffee
- 0830 **Aesthetics – Brian Musgrove and Tim Mellor**
Lectures on dermal fillers and Botulinum A toxin
Local skin flaps in facial reconstruction
Facial rejuvenation surgery
Operative practice
- 1015 Dermal fillers and Bot Tox injections, blepharoplasty, rhytidectomy, facial skin flaps
- 1300 **Exhibition and lunch**
- 1400 **The Orbit – To be advised**
Lectures on Orbital anatomy and surgical approaches,
Orbital trauma from an ophthalmic perspective
Operative practice
- 1500 Surgical approaches to the orbit, orbital floor, inferior orbital rim
Surgical approaches to the zygoma, fronto-zygomatic reconstruction
- 1715 Close of day

Tuesday 27th June 2017

- 0830 **The Temporo-mandibular joint – Louis Mercuri and Bernard Speculand**
Lectures on surgery of the tm joint and access to the condyle – **Alan Attard**
Operative practice
- 0930 Tmj arthroscopy and arthrocentesis
Eminectomy and high condylar shave
Approaches to the fractured mandibular condyle
- 1300 **Lunch**
- 1400 **Craniofacial management – Martin Evans and Kevin McMillan**
Lectures on surgical approaches for craniofacial trauma, frontal sinus management
Operative practice
- 1500 Coronal flap, pericranial flap, anterior craniotomy, cranialisation of frontal sinus
Harvesting of calvarial bone grafts
- 1700 Closing remarks

ONE DAY PRE-MEETING COURSES – Monday 26 June 2017

'An introduction to oral implantology for oral and maxillofacial surgeons to include practical sessions on implant placement'

Led by: Mr Anthony J Summerwill, Specialist in Restorative Dentistry, Prosthodontics & Periodontology

Monday 26 June 2017. One day pre-meeting BAOMS Implants workshop in conjunction with Straumann. (Limited to 18 attendees).

6.5 CPD hours allocated by BAOMS for full attendance.

Dolce and Fortissimo Rooms, Hyatt Regency Hotel, Birmingham

Outline programme

- 0900 Patient assessment and evaluation of treatment options
- 0930 Assessment of risk
- 1000 Consent and patient communication
- 1030 *Tea/coffee*
- 1050 Extraction / ridge preservation and temporization
- 1115 3d planning - radiographs and surgical guides
- 1145 The Straumann system and surgical principles to include placement on model
- 1300 Lunch
- 1400 Flap design / bone handling and suturing
- 1430 Contour augmentation and particulate grafting - membrane stabilization
- 1500 Selection and use of healing abutments - to include implant exposure and soft tissue handling
- 1530 *Tea/coffee*
- 1545 Advanced planning techniques and guided surgery
- 1615 Prosthodontic management and complications
- 1700 Finish

More than quality solutions.
Exceptional peace of mind.

ONE DAY PRE-MEETING COURSES – Tuesday 27 June 2017

'Implant treatment for compromised bone situations and the Edentulous arch'

All-on-4® Treatment Concept

Led by: Mr Robert Banks, Consultant Oral and Maxillofacial Surgeon

Tuesday 27 June 2017. One day pre-meeting BAOMS Implants workshop (Limited to 18 attendees).
7 CPD hours allocated by BAOMS for full attendance. Dolce Room, Hyatt Regency Hotel, Birmingham

Course overview

Expanding the clinician's awareness of surgical treatment options for edentulous arches, this advanced course will look at both fixed and removable options, including the All-on-4 concept. Participants will focus on the practical skills necessary to select and treat edentulous patients. Hands-on exercises and demonstrations enable participants to experience surgical solutions and the components needed more fully. This course is designed for clinicians who have extensive experience in implant dentistry

Learning objectives

- Review biological and anatomical considerations of the edentulous arch
- Explore diagnostics and treatment planning including anatomical and esthetic considerations
- Assess indications, contraindications and surgical and prosthodontic options for different patient groups
- Examine treatment options for the edentulous arch in compromised bone situations
- Compare graftless vs grafted procedures (All-on-4, short implants, narrow implants, sinus lifting, zygomatic implants)
- Consider surgical and restorative procedures for immediate loading
- Appraise treatment options for edentulous arches including fixed and removable options
- Discuss maintenance of implants and how to manage complications in the edentulous patient
- Review supporting scientific literature and clinical evidence

Outline programme

- 0845 Registration and welcome – Tea/coffee
- 0900 Introduction and shared course objectives
- 0915 **Overview:** All-on-4 history and science – how we got here, and where we are going?
- 1030 **Treatment planning, patient selection and case assessment:** What are my options? • Sinus lift vs Ao4? • Kois risk assessment and patient selection • Planning a predictable case outcome • Essential patient information and consent
- 1115 **Break**
- 1130 **Treatment planning study models and images:** Case 1 and Case 2 or delegate case discussion
- 1215 **Nobel Clinician update and scanning protocol for surgical stents. Nobel Communicator – PDF export and viewer files.**
- 1300 **Lunch**
- 1330 **Surgical Requirements for implant placement:** Malo Protocols • Restorative planning of the patient • Laboratory preparation of the patient • Surgical preparation of the patient
- 1400 **Hands on Models. All on 4 angled implant placement**
- 1500 **Break**
- 1515 **All on 4 principles applied to the oncology patient in OMFS**
- 1545 **Immediate and long term care and follow up/complications:** Implant and prosthetic failures • Long term follow up and restorative options of the All-on-4 patient
- 1645 **Conclusion, debrief and course review**
- 1400 **Flap design / bone handling and suturing**
- 1430 **Contour augmentation and particulate grafting – membrane stabilization**
- 1500 **Selection and use of healing abutments - to include implant exposure and soft tissue handling**
- 1530 **Tea/coffee**
- 1545 **Advanced planning techniques and guided surgery**
- 1615 **Prosthodontic management and complications**
- 1700 **Finish**

The evolving management of vascular anomalies

Mr Andrew Monaghan, Consultant Oral and Maxillofacial Surgeon, Queen Elizabeth and Birmingham Children's Hospitals

1200-1311 **FREE PAPER SESSIONS**

5 minutes for each presentation and 2 minutes to swap speakers with questions in middle and end of session

ONCOLOGY Hall 1

Session chairs: **to be advised**
to be advised

- 1200 1 *iKnife Rapid Evaporative Ionisation Mass Spectrometry (REIMS) Technology In Head and Neck Surgery. A Ex Vivo Feasibility Study* – Mr Jag Dhanda, Queen Victoria Hospital, East Grinstead
- 1207 3 *Changes in the Primary Tumour Staging for Oral Cancer - validation of the 8th UICC TNM staging* – Dr Drazsen Vuity, Queen Elizabeth University Hospital, Birmingham
- 1214 5 *Detection of secondary pathology on staging and follow up PET scan for patients with head and neck cancer* – Mr Matthew Idle, North Memorial Medical Center, Minneapolis, USA
- 1221 7 *Ultrasound guided Localisation in the Management of Head and Neck lesions* – Mr Khari Lewis, Royal Sussex County Hospital
- 1228-1236 Questions half way approximately 2 minutes per paper
- 1236 9 *How reliable are radiological investigations at predicting tumour stage?* – Ms Nicola Mahon, Worcester Royal Hospital
- 1243 11 *How reliable are radiological investigations at predicting nodal stage?* – Ms Nicola Mahon, Worcester Royal Hospital

SKIN Hall 5

Session chairs: **to be advised**
to be advised

- 1200 2 *Incorporating Oculoplastic Surgery exposure into OMFS Specialist Training* – Mr Karl Payne, Worcestershire Royal Hospital
- 1207 4 *Cutaneous Squamous Cell Carcinoma (CSCC) of the Head and Neck: An analysis of 727 patients over 6 years* – Dr Samantha Houlton, St Richards Hospital, Chichesterham
- 1214 6 *The UK national histopathology form for skin biopsies: a potential solution for the future. Understanding difficulties encountered during data analysis for cutaneous malignancies* – Dr Samantha Houlton, St Richards Hospital
- 1221 8 *Dermoscopy – Dermatologists only?* – Miss Lisa Greaney, Royal Surrey County Hospital, Guildford
- 1228-1236 Questions half way approximately 2 minutes per paper
- 1236 10 *Comparison of the American Joint Committee on Cancer and Brigham and Women's Hospital Staging Systems for Cutaneous Squamous Cell Carcinoma of the Head and Neck: A 6 year review* – Mr Conor Bowe, St Richards Hospital Chichesterl
- 1243 12 *Confidential Image Transfer: An Ethico-Legal Dilemma* – Miss Rhea Chouhan, Queen Elizabeth Universty Hospital Birmingham

ONCOLOGY Hall 1

- 1250 13 *Sentinel Node Biopsy in oral squamous cell carcinoma: Analysis of error in a cohort of 100 consecutive cases* – Dr Adam Holden, Gloucestershire Royal Hospitals
- 1257 15 *Clinical and translational implications of the amoeboid cell in oral cancer* – Mr Navin Vig, Barts Health London
- 1257-1311 Questions approximately 2 minutes per paper

SKIN Hall 5

- 1250 14 *An audit of unplanned returns to theatre in a regional Oral and Maxillofacial Surgery Unit* – Dr Hao-Hsuan (Mark) Tsai, Royal Dental Hospital of Melbourne
- 1257 16 *Cost implications for treatment of facial and scalp lacerations in the Emergency Department* – Dr Angelo Zavattini, Queen Elizabeth University Hospital, Birmingham
- 1257-1311 Questions approximately 2 minutes per paper

1315 LUNCH IN EXHIBITION HALL / Consultants and Specialists' Meeting – Hall 5

1415 **OPEN DEBATE** HALL 1

Training: opportunities and challenges

Chaired by: Mr Sat Parmar, Consultant Oral and Maxillofacial Surgeon, Queen Elizabeth Hospital, Birmingham

A wide ranging discussion with invited panel members exploring current and future issues that will impact on the quality of OMFS training and future delivery of care.

Topics will include how can we shorten training, the new junior doctor contract, 'Shape of Training', research and employment opportunities during the second degree and raising the profile of OMFS with medical and dental students, dentists and doctors.

1530 TEA IN EXHIBITION

1600 *Paediatric maxillofacial surgery: an overview* – Professor Andrew Heggie, Associate Professor, Section of OMFS, Department of Plastic and Maxillofacial Surgery, Royal Children's Hospital of Melbourne, Australia

1630 *Virtual planning for complex facial deformities: The Houston experience* – Dr Jaime Gateno, Professor of Oral and Maxillofacial Surgery, Houston Methodist Hospital, USA

Sponsored by  

1700 *Total Alloplastic Temporomandibular Joint Replacement Clinical and Laboratory Update* – Professor Louis Mercuri, Visiting Professor, Department of Orthopaedic Surgery, Rush University Medical Centre, Chicago and the Clinical Consultant for TMJ Concepts, Ventura California, USA

Sponsored by 

1730 *Differential Subcranial Distraction: the view from standing on the shoulders of Tessier and Ilizarov* – Dr Richard Hopper, Professor, Department of Surgery, University of Washington, Surgical Director, Craniofacial Center, Seattle Children's Hospital, USA

Sponsored by 

Dr Hopper's lecture was supported by an unrestricted educational grant from 3D Systems

- 1622 36 *Long term relationship between alar base width and lip length in patients undergoing Le Fort I orthognathic surgery: a long term study* – Dr Lino Locurcio, Ashford & St. Peter's Hospitals
- 1629 38 *Simultaneous maxillo-mandibular distraction as a single treatment modality for correction of facial deformities presenting with maxillary cant* – Professor Divya Mehrotra, King George's Medical University, Lucknow, India
- 1636 40 *Five-year experience of SARPE in a craniofacial setting: outcomes, complications and learning points* – Mr Jahrad Haq, Chelsea and Westminster Hospital, London
- 1643- 1651 Questions half way approximately 2 minutes per paper

MISCELLANEOUS Hall 1

- 1651 41 *Do Oral and Maxillofacial Surgery (OMFS) Posts Improve Oral and Dento-Alveolar Surgery Confidence in Dental Core Trainees (DCTs)?* – Mr Ross Keat, Birmingham Community Healthcare NHS Foundation Trust
- 1658 43 *Maxfax SHO – How is it going? A survey of the experiences and perceptions of new-starter dental foundation trainees, two months into commencing their first posts as SHOs within Maxillofacial Surgery* – Miss Harlene Kaur, University of Bedfordshire
- 1705 45 *Changes in the 'first' degrees of those entering Oral and Maxillofacial Surgery (OMFS) Specialty Training (ST) 2013-2016 – For the first time a majority of those entering OMFS ST training in 2016 originate from medicine* – Mr Patrick Magennis, Aintree University Hospital, Liverpool
- 1712 47 *Dental pain – a benign process or cause of crisis?* – Miss Nabeela Ahmed, Queen's Medical Centre, Nottingham
- 1719-1727 Questions approximately 2 minutes per paper

AESTHETIC & ORTHOGNATHIC Hall 5

- 1651 42 *Lip numbness does not adversely affect Quality of Life or patient satisfaction following mandibular orthognathic surgery* – Miss Zahraa Ahmad, University Hospitals Birmingham
- 1658 44 *Two Surgeon Operating for RTT (return to theatre) in Orthognathic Surgery – A new Gold Standard* – Miss Daljit Dhariwal, Oxford University Hospitals NHS Trust
- 1705 46 *The East Grinstead Consent Collaborative National Audit of Consent of 6202 Patients; A Precedence and Final Summary of Results* – Mr Jag Dhanda, Queen Victoria Hospital, East Grinstead
- 1712 48 *Perioperative assessment and management of maxillary sinus function around the time of maxillofacial surgical procedures* – Mr Jonathan Collier, Chelsea & Westminster Hospital, London
- 1719-1727 Questions approximately 2 minutes per paper

1930 for 2000 **ANNUAL BLACK TIE DINNER** TOWN HALL, BIRMINGHAM

Tickets are £70 – for registered delegates

Book now via online registration only

CLICK HERE

FRIDAY 30 JUNE 2017

- 0730-0830 **Masterclasses** – Hall 3 on the balcony
Masterclasses limited to 15 delegates registered to attend the main meeting
- MC5 *Complex facial deformity: virtual planning and case based discussions* – Dr Jaime Gateno
- MC6 *The use of 3D printing for oncology and skull base access: patient specific solutions* – Shakir Mustafa, Cellan Thomas, and Saty Bhatia, in collaboration with Renishaw
- MC7 *Skin: short case discussions with an eye on the exam* – Keith Webster

0800 **COFFEE HALL 3**

0830 – 0951 **FREE PAPER SESSIONS**

5 minutes for each presentation and 2 minutes to swap speakers with questions in middle and end of session

ONCOLOGY Hall 1

Session chairs: to be advised
to be advised

- 0830 49 *5 year prospective review of a one-stop head and neck lump service* – Dr Alireza Esfandiari, Kings College Hospital

CLEFT & CRANIOFACIAL Hall 5

Session chairs: to be advised
to be advised

- 0830 50 *Coffee cups to learn palate surgery: A simple and cheap simulator for technical skills acquisition* – Miss Ioanna Dimasi, Great Ormond Street Hospital, London

ONCOLOGY Hall 1

- 0837 51 *Single Centre Tracheostomy Blockage and Displacement Rates – an 18 year experience* – Dr Julia Palmer, Royal London Hospital
- 0844 53 *Early oral cavity squamous cell carcinoma (pT1): a selective approach to surgical intervention in the neck is justified: a 10-year single centre retrospective review* – Mr Ioan Davies, St George's University Hospitals
- 0851 55 *Survival following surgery for Oral cancer-The Leeds 30-year experience* – Mr Colm Murphy, Leeds Teaching Hospitals NHS Trust
- 0858 57 *An audit of enhanced recovery with integrated care assessment (ERICA) in head and neck cancer surgery* – Dr Ayesha Dalal, Royal Devon and Exeter NHSFT
- 0905-0915 Questions approximately 2 minutes per paper
- 0915 59 *A pilot model for case-mix adjustment when auditing length of stay after surgery for Head and Neck Cancer* – Mr David Tighe, East Kent University Hospitals NHS Foundation Trust
- 0922 61 *Comparison of two risk adjustment algorithms, (POSSUM and a Artificial Neural Network) in audit of early outcomes after major Head & Neck Surgery* – Mr David Tighe, East Kent University Hospitals NHS Foundation Trust
- 0929 63 *Regional Variations in Head and Neck Reconstruction: An analysis of 2053 patients treated from 31 units nationwide* – Mr Jag Dhanda, Queen Victoria Hospital, East Grinstead
- 0936 65 *Genomic analysis to assess disease progression and recurrence in patients with oral squamous carcinoma – a preliminary study* – Professor Anastasios Kanatas, Leeds Teaching Hospitals NHS Trust
- 0943-0951 Questions approximately 2 minutes per paper

CLEFT & CRANIOFACIAL Hall 5

- 0837 52 *A novel approach for the three-dimensional evaluation of facial asymmetry of unilateral cleft lip and palate patients (UCLP)* – Mrs Dhelal Al-Rudainy, Glasgow Dental School, School of Medicine, College of Medical, Veterinary and Life Sciences, University of Glasgow, Glasgow
- 0844 54 *Insertion of nasopharyngeal airway in primary cleft palate repair. An audit of practice at Alder Hey Children's Hospital* – Miss Marnie Fullarton, Aintree University Hospital, Liverpool
- 0851 56 *Autotransplantation of teeth to the reconstructed alveolus in unilateral cleft lip and palate patients* – Miss Deepti Sinha, University Hospital, Leuven
- 0858 58 *An analysis of speech outcomes in 70 consecutive repairs of sub-mucous cleft palate* – Mr John Paul Wells, Welsh Centre for Cleft lip and Palate
- 0905-0915 Questions approximately 2 minutes per paper
- 0915 60 *Design, Manufacture and testing of a patient specific shape memory expander for unicoronal craniosynostosis* – Mr Will Rodgers, Royal Free Hospital NHS Trust
- 0922 62 *Spring mediated cranioplasty: a patient specific computational model* – Mr Will Rodgers, Royal Free Hospital NHS Trust
- 0929 64 *Management of scaphocephaly- Glasgow experience* – Mr Moorthy Halsnad, Royal Hospital for Children, Glasgow
- 0936 66 *Custom-made facial onlay implants: our experience of 50 consecutive cases* – Mr Jonathan Collier, Chelsea & Westminster Hospital, London
- 0943-0951 Questions approximately 2 minutes per paper

1030 – 1530

Institute of Prothetists and Maxillofacial Technologist (IMPT) Conference – Hall 5
(see IMPT website for full programme and registration details)

For registration and full programme

 **CLICK HERE**

1005-1130

SYMPOSIUM HALL 1

Academic Oral and Maxillofacial Surgery: opportunities and challenges

1005

Whither Academic Oral & Maxillofacial Surgery: What are the opportunities for clinical research in today's NHS? – Professor Richard Shaw, Professor of Head and Neck Surgery, University of Liverpool

1025

Modelling explosive projectiles: from military neck protection to civilian transport infrastructure – Major Johno Breeze, ST7 Registrar, Queen Elizabeth Hospital, Birmingham

- 1040 *A journey from in vitro to ex vivo and ultimately in vivo* – Mr Jagtar Dhanda, Consultant Oral and Maxillofacial Surgeon, East Grinstead Hospital
- 1055 *Invasion: the changing shape of oral cancer* – Mr Navin Vig, ST5, Barts Health NHS Trust
- 1110 Panel: questions and answers

1130 COFFEE HALL 3

1200 **NORMAN ROWE LECTURE**

Bastion, Birmingham and Beyond – Lessons Learnt in Trauma

Professor Sir Keith Porter, Professor in Clinical Traumatology, Clinical Service Lead for Trauma, University Hospitals, Birmingham

1245 LUNCH AND FINAL EXHIBITION VIEWING (EXHIBITION CLOSURES AFTER LUNCH) HALL 1

- 1330 *The use of digital applications in contemporary OMFS surgery* – Mr Hitesh Koria, Principal Prosthetist, Queen Elizabeth Hospital, Birmingham
- 1345 *Customized Implants and Surgical Guides in Oral and Maxillofacial Surgery* – Professor Dr. Dr. Alexander Schramm, Professor and Chair, Oral and Maxillofacial Surgery, University Hospital Ulm and Military Hospital Ulm, Germany
- 1410 Lecture to be confirmed
- 1435 *3D and 4D imaging: Clinical, technical and analytical considerations* – Professor Sunny Khambay, Clinical Chair Professor of Orthodontics
- 1500 *Clinically led quality improvement* – Miss Maire Morton, Consultant Oral and Maxillofacial Surgeon, East Lancashire Hospitals NHS Foundation Trust
- 1515 *Learning needs of Dental Core Trainees... Exploring their ideas, concerns and expectations* – Mr Shakir Mustafa, Consultant Oral and Maxillofacial Surgeon, Cwm Taf University Health Board
- 1530 Questions
- 1600 Close of conference

ePOSTERS

ePosters will be displayed in Hall 3 on touch screen monitors. They can also be accessed via a dedicated website portal on individual personal devices during and after the meeting (for up to one year).

AESTHETIC P1 – P2

- P1 *DIY Fillers* – Dr Jessica Blanchard, Homerton University Hospital
- P2 *Langer's Lines – What are they and do they matter?* – Mr John Murphy, Rotherham General Hospital

AUDIT P3 – P38

- P3 *When do we decompress cysts and is it an effective treatment tool? A 5 year multicentre retrospective audit* – Miss Mahim Ali, Worcestershire Royal Hospital
- P4 *The Importance of Auditing New Equipment: An Audit on Hybrid MMF Arch bars* – Dr Roshanak Attwall, Northwick Park Hospital
- P5 *An audit on diagnostic value and appropriateness of radiographs attached to general dental practitioner referrals to the oral and maxillofacial unit* – Mr Damian Broderick, Royal Preston Hospital
- P6 *The Clinical Outcomes of Arthrocentesis for the Treatment of Internal Derangements of the Temporomandibular Joint* – Dr Conor Carroll, Aintree University Hospital NHS Foundation Trust
- P7 *A Retrospective Audit to Assess the Efficacy of Delegated Consent Training for Maxillofacial Trauma* – Dr Conor Carroll, Aintree University Hospital NHS Foundation Trust
- P8 *A retrospective audit to review success rates of coronectomies in the management of lower third molars at Mid Yorkshire Hospital Trust* – Miss Helen Cashman, University Hospital Aintree
- P9 *Determining the time from mandible fracture admission to treatment as a marker of clinical care* – Miss Rhea Chouhan, Queen Elizabeth Hospital Birmingham
- P10 *National audit investigating Oral and Maxillofacial Surgery out of hours ward cover senior house officer background, experience and training* – Dr Zachary Cole-Healy, King's College Dental School
- P11 *Impacted maxillary canines: A five year retrospective audit on the outcome of surgical exposure* – Dr Ciaran Devine, Poole Hospital NHS Foundation Trust
- P12 *Temporal artery biopsy... does it really alter management of Temporal Arteritis?* – Dr Alan Dewar, Victoria Hospital, Fife
- P13 *The importance of record keeping and the ward round: A review of practice and protocol for Dental Core Trainees in Oral & Maxillofacial Surgery* – Dr Rajinder Singh Dodd, Sheffield Teaching Hospitals
- P14 *An audit to analyse adherence to IV sedation standards in the Pinderfields General Hospital Oral and Maxillofacial Department* – Ms Erin Giles, Mid Yorkshire Hospital Trust
- P15 *An audit to review data entry of oncology patients onto the Somerset Cancer Register at University Hospital Aintree* – Dr Mishaal Gill, Aintree University Hospital

- P16 *Interval computerised tomographic scanning of the thorax in newly diagnosed head and neck cancer patients with pulmonary nodules at staging* – Dr Peter Glen, The University Hospital of Wales
- P17 *Appropriate assessment of eye observations in the Accident and Emergency department in patients with zygomatic complex / orbital fractures requiring surgical treatment* – Miss Claire Graham, North Manchester General Hospital
- P18 *Appropriate Use of Blood Glucose Investigation for Patients Presenting with Acute Cervicofacial Infections* – Mr Mohammad Hussain, Pinderfields General Hospital
- P19 *Cancellations in Head and Neck (H&N) Elective Surgery* – Miss Urooj Iqbal, Northampton General Hospital
- P20 *Audit of 200 consecutive free flaps* – Mr Owais Khattak, Aintree University Hospital
- P21 *Admission for cervicofacial infection after exodontia: a data comparison study* – Mr Conal Maguire, King's College Hospital
- P22 *Completed Audit Cycle of Antibiotic use in Mandibular Fractures* – Mr Chang-Bon Man, Northwick Park Hospital
- P23 *Local service evaluation assessing consent and patient comprehension of lower wisdom teeth removal* – Dr Vinay Mistry, York Teaching Hospital NHS Foundation Trust
- P24 *The Appropriateness of Pre-operative Bloods for Patients with Fractured Mandibles* – Dr Farnaz Motamedi-Azari, London North West NHS Trust
- P25 *Improving safety and efficacy of the Surgical Ward Round* – Dr Kishan Patel, King's College Hospital Trust
- P26 *Monitoring OMFS patients using NEWS: accuracy and the implications of inaccuracy* – Dr Sama Ria, Northwick Park Hospital
- P27 *Culture and sensitivity reporting in odontogenic infections: do microbiology swabs change antibiotic prescribing practice?* – Dr Jasdeep Singh Saggi, University Hospitals Coventry and Warwickshire NHS Trust
- P28 *Last minute cancellations of planned and elective operations in maxillofacial surgery - a hospital experience* – Mr Sunil S Shroff, North MancheFounter General Hospital, Pennine Acute Hospitals
- P29 *Quality of Lateral Cephalometric Radiographs Used for Orthodontic/Orthognathic Surgery Treatment - A Multi-Centre Regional Audit* – Miss Sanjeet Singhota, Royal Stoke University Hospital, Newcastle Road, Stoke-On-Trent, ST4 6QG, United Kingdom
- P30 *Patient aftercare and the orthognathic journey at Mid Yorkshire Hospitals Trust: Can we improve it?* – Dr Paula Sinnott, Pinderfields General Hospital
- P31 *An objective assessment of OMFS induction courses for junior trainees* – Mr Arpan Tahim, UCLH
- P32 *Staging imaging in oral cancer: the clock is ticking* – Miss Laura Timms, Manchester Royal Infirmary
- P33 *A service evaluation of surgical tracheostomies in the emergency theatre at University Hospital, Coventry: time for a dedicated tracheostomy team?* – Dr Miesha Virdi, University Hospitals Coventry and Warwickshire NHS Trust
- P34 *Diagnostic quality of Labial gland biopsies in the diagnosis of Sjögrens syndrome in EKHUFT* – Dr Barinder Virdi, William Harvey Hospital, East Kent Hospitals University NHS FT
- P35 *An audit to assess compliance of cleft orthognathic patients against BAOMS/BOS Orthognathic Minimum Dataset* – Dr Miesha Virdi, Queen Elizabeth Hospital Birmingham
- P36 *Coordinating surgical work experience programmes for sixth-form pupils: help or headache?* – Miss lara Watson, Chelsea & Westminster Hospital
- P37 *Subsequent publication of abstracts accepted for BAOMS scientific meetings: 10 years on – have we published or perished?* – Miss Lara Watson, Chelsea & Westminster Hospital
- P38 *An audit on two week waits referrals to oral and maxillofacial surgery department at Queen's Hospital (BHRUT), Romford* – Dr Abdulwahab Zidan, Queen's Hospital, Romford

CANCER P39-P64

- P39 *Case report: Palatal tongue adhesions nasopharyngeal carcinoma* – Miss Mahim Ali, Worcestershire Royal Hospital
- P40 *Adenoid Cystic Carcinoma of the head and neck - a survey of current UK practice* – Mr Mustansir Alibhai, Queen Victoria Hospital, East Grinstead
- P41 *Compliance of CT chest surveillance following oral cancer treatment: An audit of Edinburgh OMFS practice* – Mrs Nicola Campbell, St John's Hospital, Livingston
- P42 *A rare case of tongue base squamous cell carcinoma with bilateral neck dermoid cyst. A case report and literature review* – Mr Matthew Chung, Queens medical centre, Nottingham
- P43 *An unusual case of Lymphoma: Oropharynx like a Squamous Cell Carcinoma, Neck like Tuberculosis, Pathology of Epstein-Barr Virus until the Bitter End* – Dr Lisa Clarke, Royal Blackburn Hospital

- P44 *Is it possible to personalize the post-treatment follow-up of patients treated for oral squamous cell carcinoma based on their clinical and pathological risk factors?* – Ms Ioan Davies, Bradford Institute of Health Research, Head and Neck Clinical Trials, Bradford Teaching Hospitals NHS Foundation Trust
- P45 *Does tumour size and nodal status predict the accuracy of current imaging modalities in staging head and neck cancer patients?* – Dr Oliver Dugena, Nottingham University Hospitals
- P46 *A tale of two audits: Outcomes and trends in free flap reconstruction at Sunderland Royal Hospital* – Miss Katharine Dunn, Sunderland Royal Hospital
- P47 *Extra-pulmonary Small Cell Cancer of the Sublingual Gland* – Miss Sonam Haria, Queen Victoria Hospital, East Grinstead
- P48 *Is there any change to the recommended minimum depth of tumour invasion in tongue squamous cell carcinoma when the cNO neck requires elective surgical staging?* – Mr Michael Ho, Leeds Teaching Hospitals NHS Trust
- P49 *(In) Appropriateness of referrals on the two week pathway?* – Dr Sarah Jadun, University Hospital South Manchester
- P50 *Synchronous primary squamous cell carcinomas in the upper aerodigestive tract with differing histological features and metastatic spread: A case report* – Dr Aiysha Kanji, Norfolk and Norwich University Hospital
- P51 *Pseudoaneurysm of the lingual artery - a case series* – Miss Hana Kennedy, Royal London Hospital
- P52 *A one year audit of Lymph Node Yield in Neck Dissections at Luton & Dunstable Hospital* – Mr Chang-Bon Man, Luton & Dunstable University Hospital
- P53 *The reliability of radiological staging of head and neck cancer patients* – Mr Peter McAllister, NHS Lothian
- P54 *A comparison of CPEX testing, and ACE-27 score as a pre-operative prognostic indicator of post-operative complications, and length of hospital stay* – Miss Stephanie Milne, Hull Royal Infirmary
- P55 *How do delays in treatment affect patient prognosis in head and neck cancer?* – Dr Hussein Mohamedbhai, University College Hospital
- P56 *How does tracheostomy affect length of hospital stay in head and neck cancer?* – Dr Hussein Mohamedbhai, University College Hospital
- P57 *Spindle cell sarcoma - a rare cause of a lump in the lower lip* – Mr Liam Monaghan, Royal Albert Edward Infirmary / Central Manchester Foundation Trust
- P58 *Use of Integra® dermal substitute in reconstruction after ablative surgery of recurrent squamous cell carcinoma of the scalp - a case report* – Dr Shadaab Mumtaz, Homerton University Hospital NHS Foundation Trust
- P59 *A review of outcomes of Major Head and Neck Surgery in patients over 80 years between 1997-2016 in East Kent* – Dr Jitesh Patel, William Harvey Hospital
- P60 *Comparison of surgical anastomosis time between free-flaps utilised in head and neck reconstruction* – Mr Karl Payne, Worcestershire Royal Hospital
- P61 *A rare diagnosis of a rapidly developing mandibular swelling in a 3-year old* – Dr Jaya Pindoria, Bristol Dental Hospital
- P62 *Complete spontaneous regression of a metastatic melanoma of the mandible – A case report and Follow up Recommendations* – Mr Juergen Schlabe, King's College Hospital
- P63 *Approach to suspected malignant neck mass: The Aberdeen protocol* – Mr Arshad Siddiqui, St. Johns Hospital, Livingston
- P64 *Malignant Rhabdoid Tumour of the Tongue: A Case Report and Review of the Literature* – Dr Gauri Vithlani, Royal Free London

CLEFT P65

- P65 *The Central Lip Flap Revisited* – Mr Oliver Mitchell, Salisbury District Hospital

CRANIOFACIAL P66-P72

- P66 *A Case Report: Craniofacial Fasciitis - Extracranial Presentation* – Dr Sarah Ainscough, York Hospital
- P67 *The History of Cranioplasty* – Mr Jasdeep Brar, King's College London
- P68 *Multisuture Craniosynostosis and Papilloedema in a Child with Pycnodysostosis. A Rare Case Report* – Ms Louise Dunphy, Department of Cleft and Craniofacial Surgery, The John Radcliffe Hospital, Oxford
- P69 *Trimethylaminuria "Fish Odour Syndrome" in a Toddler with Metopic Synostosis* – Ms Louise Dunphy, Department of Cleft and Craniofacial Surgery, The John Radcliffe Hospital, Oxford

- P70 *The Maxillofacial Considerations for Patients with Cerebrocostomandibular Syndrome* – Mr Othman Hameed, Great Ormond Street Hospital
- P71 *The staged approach to the treatment of patients with cleidocranial dysplasia: A case series* – Dr Dipesh Patel, Guy's Hospital
- P72 *Transcranial resection of nasal dermoids- Our experience from Glasgow Craniofacial Unit* – Mr Arshad Siddiqui, Royal Hospital for Children, Queen Elizabeth University Hospital Glasgow

DENTO ALVEOLAR P73 – P93

- P73 *The surgical and anaesthetic management of severe dento-facial infections (DFI) – a prospective study* – Mr Conor Bowe, St Richards Hospital Chichester
- P74 *A study of over 700 patients with incision and drainage at King's College Hospital A 5 year retrospective study* – Mr David Chapireau, King's College Hospital
- P75 *Life threatening complications of coronectomies* – Mr David Chapireau, King's College Hospital
- P76 *Treatment and recurrence of Keratocystic Odontogenic tumours in Leeds General Infirmary: A study of 76 cases* – Dr Michael Davies, Leeds General Infirmary
- P77 *Role of juxta apical radiolucency (JAR), the 'new' radiological sign in assessment of risk of inferior alveolar nerve injury with lower third molar removal* – Mr Ciro Gilvetti, Queen Victoria Hospital
- P78 *Use of customised Molloplast-B decompression stents in odontogenic cysts in two paediatric cases* – Miss Clare Grant, The Royal London Hospital
- P79 *A review of the implementation in general dental practice of the 2015 update to NICE antibiotics prophylaxis guidelines for patients at risk of infective endocarditis* – Mr Neil Horisk, Pinderfields Hospital Wakefield
- P80 *Apicectomy - Historical or Still Relevant?* – Dr Sarah Jadun, University Hospital South Manchester
- P81 *To marsupialise or not to marsupialise? :A case series* – Dr Sandeep Joshi, Eastman Dental Hospital
- P82 *Actinomycotic Osteomyelitis of the Mandible: A Rare Case Report* – Dr Katy Martin, Luton and Dunstable University Hospital
- P83 *The frontline management of postoperative haemorrhage following dentoalveolar surgery: an audit* – Miss Katy Martin, Luton and Dunstable University Hospital
- P84 *Patients on new oral anticoagulant drugs* – Dr Sweta Mehta, Oxford University Hospitals NHS Foundation Trust
- P85 *The novel use of dental suction tubing in the decompression of large dental cysts* – Dr Rachel Otukoya, Shrewsbury and Telford Hospitals NHS Trust
- P86 *A retrospective analysis of dentoalveolar cases of general anaesthesia at Croydon University Hospital* – Dr Jalpa Patel, Barnet and Chase Farm
- P87 *The use of dental alert cards for 'at risk' MRONJ patients* – Dr Dipesh Patel, Guy's Hospital
- P88 *To coronectomy or not to coronectomy: that is the question* – Miss Joanne Peat, HMS Neptune Dental Centre, HMNB Clyde
- P89 *Regional survey of dental cervicofacial infections* – Mr Andrew Power, Leeds General Infirmary
- P90 *Use of videos as part of the consenting process for Minor Oral Surgery procedures - Patient perspectives* – Dr Sama Ria, Northwick Park Hospital
- P91 *Paediatric Dental infections and Safeguarding - a potential link to detect children at risk?* – Mr Juergen Schlabe, King's College Hospital
- P92 *Which Teeth Need Extracting? - An Assessment of the Frequency of Amendments to Referrals for Dento-Alveolar Surgery* – Dr James Shuttleworth, Kettering General Hospital
- P93 *Should we re-think the OMFS antimicrobial management for orofacial infections? - lessons learnt from acute medicine* – Dr Sangeetha Thomas, King's College Hospital

FACIAL SKIN CANCER – P94 – P110

- P94 *Healing by secondary intention for head and neck skin lesions - patient survey and case series* – Dr Sarah Ali, Homerton University Hospital
- P95 *Pleomorphic Dermal Sarcoma - A clinicopathologic study of 19 cases* – Mr Conor Bowe, St Richards Hospital, Chichester
- P96 *What do patients say about facial skin cancer surgery? Analysis of aspects of quality using a new tool to measure patient reported experience and outcome in the Surgical Management of Non-Melanoma Skin Cancer of the Head and Neck (NMSC)* – Ms Aisling Cant, Torbay and South Devon NHS Foundation Trust

- P97 *Do we all mean the same thing by incomplete excision margins in Non Melanoma Skin Cancer Surgery? Reflections from the literature and analysis of results from one service in a district hospital in south west England* – Mr Benjamin Collard, Torbay and South Devon NHS Foundation Trust
- P98 *Are simple pressure dressings effective in controlling post operative bleeding in skin cancer surgery in patients on oral anticoagulants* – Mr Siddharth Gowrishankar, Northampton General Hospital
- P99 *Comparison of Rivaroxaban vs Warfarin and their relative risk of post op bleeding in skin cancer surgery* – Mr Siddharth Gowrishankar, Northampton General Hospital
- PI00 *Split Skin Graft Donor Site Diathermy: A Novel Technique* – Dr Adam Holden, Gloucestershire Royal Hospitals
- PI01 *Staged excision of malignant skin tumours in the head and neck - an alternative to Mohs surgery?* – Mr Paul Lugaric, Rotherham General Hospital
- PI02 *The effectiveness of the cellulome epidermal harvesting system - should we change our clinical practice?* – Ms Nicola Mahon, Worcester Royal Hospital
- PI03 *Nasalis myocutaneous island pedicle flap for nasal reconstruction - a case series* – Ms Nicola Mahon, Worcester Royal Hospital
- PI04 *Adjuvant radiotherapy to a scalp wound reconstructed with Integra & split thickness skin graft: foolhardy or wise addition to treatment options of large skin defects?* – Dr Jaimini Mehta, Bedford Hospital
- PI05 *An investigation of patient recorded outcomes following nasal reconstruction with paramedian forehead flaps* – Dr Asfa Mughal, Arrowe Park Hospital
- PI06 *NHS Fife Cutaneous Squamous Cell Carcinoma Distribution and Rates - A Body Map* – Dr Susan Murray, Victoria Hospital, Kirkcaldy, Fife
- PI07 *Survey on the use of dermoscopy in for the management of skin lesions in Oral & Maxillofacial Surgery - a NICE reminder* – Miss Hira Nazir, Aintree University Hospital, Liverpool
- PI08 *SCC arising at the edge of resected Integra; positive margin or purple herring?* – Mr Alan Parbhoo, Beds, Herts & Bucks OMFS Network
- PI09 *Wolfe Graft: Monitoring Success* – Dr Matthew Proctor, Sunderland Royal Hospital
- PI10 *Completeness of Basal Cell Carcinoma excisions in an Oral and Maxillofacial Surgery department* – Mr Christopher Wright, Altnagelvin Area Hospital

HEAD AND NECK RECONSTRUCTION PI11-PI24

- PI11 *Enhanced Recovery in Head and Neck Patients - an early experience* – Mr Mustansir Alibhai, Queen Victoria Hospital, East Grinstead
- PI12 *Can Cardiopulmonary Exercise Testing (CPET) predict post operative complications and flap failure for patients undergoing resection for a head and neck malignancy with microvascular free flap/tissue reconstruction* – Mr Damian Broderick, Royal Preston
- PI13 *The development of 3D planning for Midface reconstruction* – Mr Mohamed Elsapagh, University of Birmingham
- PI14 *Customised fibular cradle plate: a new concept in mandibular reconstruction; optimising bony height, lower border contour and pedicle length* – Mr Alexander Goodson, Wales Deanery
- PI15 *A Lifeboat in Stormy Seas: A Vein Graft of Last Resort* – Mr James Higginson, Queen Elizabeth Hospital Birmingham
- PI16 *Diffuse heterotopic calcification of fibula flap - a previously unreported case* – Mr Paul Lugaric, Rotherham General Hospital
- PI17 *Early oral intake and length of stay following free flap reconstruction of the oral cavity* – Mr Barry Main, Gloucestershire Royal Hospitals
- PI18 *A Maxillofacial Surgeon and Trainee's Perspective of the Medial Sural Artery Perforator Flap* – Mr Nikhil Maini, Queen Victoria Hospital, East Grinstead
- PI19 *10 year audit of Head and Neck reconstructions at the Luton & Dunstable University Hospital: From a District General Hospital to the Regional Maxillofacial Centre - What have we learnt?* – Mr Chang-Bon Man, Luton & Dunstable University Hospital
- PI20 *Predictors of unplanned returns to the operating theatre following major head and neck surgery with free flap reconstruction* – Mr Donal McAuley, Queen Elizabeth University Hospital, Glasgow
- PI21 *Use of colour flow Doppler in locating the optimum donor site for perforator free flap reconstruction* – Mr Darpan Mehta, Sunderland Royal Hospital
- PI22 *The Cardiovascular monitoring and Vasopressor use in Head & Neck microvascular flap reconstruction* – Mr Sumeet Raj, Aberdeen Royal Infirmary
- PI23 *You're never too old for a free flap* – Miss Francine Ryba, St George's Hospital
- PI24 *Lateral Arm Flap in Paediatric Reconstruction* – Dr Drazsen Vuity, Queen Elizabeth University Hospital, Oral and Maxillofacial Surgery Department

IMPLANTS P125-P129

- P125 *Brainlab-augmented placement of zygomatic implants for retention of nasal prosthesis immediately following rhinectomy* – Mr Alexander Goodson, Wales Deanery
- P126 *Novel anti-reflection surface coating of scanbodies: an in vitro study* – Dr Ole Jung, University Medical Center Hamburg-Eppendorf, Department of Oral and Maxillofacial Surgery
- P127 *Floor of Mouth Haematoma following Dental Implant: A Case Report* – Miss Catherine Law, Queen Victoria Hospital, East Grinstead
- P128 *White ceramized implants and abutments to optimize the aesthetic outcome and improvement of hard and soft tissue management: an in vitro study* – Professor Ralf Smeets, University Medical Center Hamburg-Eppendorf; Department of Oral and Maxillofacial Surgery
- P129 *Success of dental implants in head and neck cancer patients: does radiotherapy affect success?* – Dr Claire Wilson, Torbay Hospital

MAXILLOFACIAL TRAUMA P130 – P178

- P130 *Management of Dento-Alveolar trauma in A&E* – Dr Zahra Al Asaadi, Southampton General Hospital
- P131 *Successful management of a gun shot wound to the mandibular condyle by removal of the condylar head with no hard tissue reconstruction - Lessons for blunt trauma management?* – Miss Sana Ali, Barts Health NHS Trust
- P132 *To scan or not to scan - a service improvement project for CT in facial trauma* – Mr James R Allison, Sunderland Royal Hospital
- P133 *Delayed Presentation of White Eye Blowout Injuries; an Ongoing Maxillofacial Educational Need – A Case Series and Review of Timing of Management* – Miss Ishita Basu, Northwick Park Hospital
- P134 *Management of Complex Soft Tissue Injury* – Miss Eleanor Bowden, Aintree University Hospital
- P135 *The Difficult Arch* – Mr Duncan F Campbell, St John's Hospital, Livingston
- P136 *Oral Mucosal Trauma related to the use of Ecstasy (3,4-methylenedioxy-methamphetamine) - A Case Report* – Dr Aisling Cant, Torbay and South Devon NHS Trust
- P137 *Virtual Trauma Clinic: A Novel Platform to Enhance Patient Care and Educational Value of Maxillofacial Trauma Cases* – Dr Simran Chana, Innovation Fellow, NHS England
- P138 *Post-operative, external, ultrasonic bone stimulation: preliminary experiences with mandibular healing* – Mr Jonathan Collier, Chelsea & Westminster Hospital
- P139 *Systematic review of the prevalence of maxillofacial injuries sustained in Gaelic Games over 35 years* – Dr Rebecca Courtney, University Hospital Galway
- P140 *Surgical management of condylar fracture: A trainee friendly approach* – Dr Miriam Crowley, St John's Hospital, Livingston
- P141 *Improving the ability of Casualty doctors to identify fractures of the orbit* – Dr Jonathan Dennis, Queen's Medical Centre
- P142 *Improving the ability of Casualty doctors to identify mandibular fractures* – Dr Jonathan Dennis, Queen's Medical Centre
- P143 *A new trend in mandibular fracture epidemiology in Scotland* – Miss Laura Feeney, Ninewells Hospital
- P144 *A 10-year retrospective review of Maxillofacial trauma in Prisoners - The East Grinstead experience* – Mr Montey Garg, Queen Victoria Hospital, East Grinstead
- P145 *Isolated posterior wall of frontal sinus fracture - A case report and review of literature* – Mr Montey Garg, Queen Victoria Hospital, East Grinstead
- P146 *A retrospective review of animal and insect bites in the Oral and Maxillofacial region* – Mr Montey Garg, Queen Victoria Hospital, East Grinstead
- P147 *Paediatric Maxillofacial lacerations and Marginal Mandibular Nerve (MMN) weakness* – Mr Montey Garg, Queen Victoria Hospital, East Grinstead
- P148 *Case series of 132 patients with orbital floor fractures via a "sutureless" transconjunctival approach* – Miss Alexandra Green, Northwick Park
- P149 *Cricket Related Maxillofacial Fractures* – Dr Othman Hameed, Barts Health
- P150 *A new trend in midface fracture epidemiology in Scotland* – Mr Cameron Herbert, Aberdeen Royal Infirmary / University of Aberdeen
- P151 *SIMD and Duration of admission in Hospital following Midface & Mandibular Trauma in Scotland* – Miss Eilidh Herbert, Ninewells Hospital
- P152 *Post-Traumatic Zygomatic Osteotomies: An Evolutionary Journey to State Of The Art 3D Planning and Reconstruction* – Mr Jonathan Hulbert, Prince Charles Hospital

- PI53 *Mediastinal emphysema from a mid facial fracture* – Dr Sandeep Iyer, Leeds Teaching Hospitals NHS Trust
- PI54 *Can we use social media to educate patients?* – Miss Shaira Kassam, Northwick Park
- PI55 *The characteristics of facial injuries presenting to The Oral and Maxillofacial Department at The University Hospital of Wales. What has changed?* – Dr Ross Paul Lewis, University Hospital of Wales
- PI56 *Imaging of Mandibular Trauma* – Dr Helena Loynes, University Hospital of South Manchester
- PI57 *Management of Invasive Group A Streptococcal Oro-facial infections following Minor Facial Trauma in Two Children* – Dr Marwa Maarouf, The Royal Wolverhampton NHS Trust
- PI58 *Outcomes on implementing an emergency daytime theatre for OMFS at Mid-Essex oral and facial multidisciplinary network* – Mr Khemanand Maharaj, Mid-Essex Hospital NHS Trust
- PI59 *Overcoming the nasomaxillary defect in a healed midface fracture - a case report* – Ms Nicola Mahon, Worcester Royal Hospital
- PI60 *Endoscopic approach to post traumatic isolated frontal bone deformities* – Mr Donal McAuley, Queen Elizabeth University Hospital, Glasgow
- PI6 *Does a scoring system for paediatric facial lacerations predict management?* – Mr Alasdair McKechnie, University of Leeds
- PI62 *Management of Facial Trauma in the Prisoner Population* – Mr Oliver Mitchell, Salisbury District Hospital
- PI63 *Should Lateral Canthotomy be Taught on the Advance Trauma Life Support (ATLS) Course?* – Dr Farnaz Motamedi-Azari, London North West NHS Trust
- PI64 *A rare case of isolated bilateral orbital floor fractures - Our experience* – Mr John Murphy, Rotherham General Hospital
- PI65 *Management of fractures of the atrophic edentulous mandible: is there a place for "old-fashioned" techniques?* – Mr Prady Naredla, University Hospital Coventry
- PI66 *Modified Zimmer finger splint revisited* – Mr Pavan Padaki, North Manchester General Hospital
- PI67 *Clinical recording of a minimal dataset to enable accurate comparisons of outcomes from isolated mandibular condyle fractures* – Miss Yatisha Patel, Queen Elizabeth Hospital, University Hospitals Birmingham
- PI68 *Airway Considerations in Markedly Displaced Mandibular Fractures; Two Case Reports* – Dr Alexander Rickart, Royal Free London NHS Foundation Trust
- PI69 *Maxillofacial injuries in Gaelic Games: A review of insurance injury claims of 2007-2015* – Mr Paul F Sexton, Galway University Hospital
- PI70 *Dental injuries in Gaelic Games: A review of insurance injury claims of 2007-2015* – Mr Paul F Sexton, Galway University Hospital
- PI71 *Management of mandibular fracture in a one-year-old child: A case report* – Mr Rabindra Singh, University Hospital Southampton
- PI72 *Can we rely on emergency department radiographic reports alone to identify maxillofacial trauma patients requiring operative intervention? The Glasgow Experience* – Mr Peter Steele, Queen Elizabeth University Hospital, Glasgow
- PI73 *A Case Report: Eye in the Sinus - Acute and Long Term Reconstructive Management of an Avulsed Globe following Blunt Trauma* – Dr Lydia Thom, Hull Royal Infirmary
- PI74 *Case Report: Household Chores : Hazardous to Health?* – Mr James Thomas, James Cook University Hospital, Middlesbrough
- PI75 *Diplopia and the DVLA - Our responsibility* – Miss Laura Timms, Manchester Royal Infirmary
- PI76 *Can Health Tracking Apps Spur Risk-Taking Behaviour? A 2-Year Retrospective Review of Strava Related Cycling Injuries Within North-West London* – Dr Aamir Vaghela, Northwick Park Hospital
- PI77 *Management of facial trauma in adults in the Libyan war, our experience* – Mr Abdulhakim Zaggut, Royal London Hospital
- PI78 *Management of facial trauma in children in the Libyan war, our experience* – Mr Abdulhakim Zaggut, Royal London Hospital

MISCELLANEOUS P179 – P224

- PI79 *'I'm Not a Dentist!' - Presentation and Management of Dental Conditions in A&E* – Dr Zahra Al Asaadi, Southampton General Hospital
- PI80 *The Usefulness of a "Pre-op Huddle" - An Audit of Issues Identified from a Preoperative Surgical Form* – Miss Sally Al-Ali, Countess of Chester
- PI81 *Benign Cylindroma* – Dr Sarah Ali, Homerton University Hospital
- PI82 *A Review of Treatment Outcomes for Patients Receiving Intra-maseteric Botulinum Toxin-A for the Management of Facial Myofascial Pain* – Miss Reem Ali, Ninewells Hospital
- PI83 *Surgical Simulation Training in Patient Specific Mandibular Reconstruction: A pilot training model for Oral and Maxillofacial Surgery Trainees* – Miss Reem Ali, Ninewells Hospital

- PI84 *Body modification within the head and neck* – Dr Rakhee Budhdeo, Luton and Dunstable Hospital
- PI85 *Is OMFS in Northampton General Hospital providing a seven days service?* – Miss Marta Cabral, Northampton General Hospital
- PI86 *The use of Lidocaine, Adrenaline and Tetracaine (LAT) gel in the treatment of paediatric facial lacerations in a single Maxillofacial Unit* – Miss Marta Cabral, Northampton General Hospital
- PI87 *Accident and Emergency referrals to OMFS in Northampton General Hospital: Are we getting busier?* – Miss Marta Cabral, Northampton General Hospital
- PI88 *Parathyroid surgery within an OMFS department: Indications and changes in service provision over a 10 year period* – Mr Benjamin Collard, Torbay and South Devon NHS Foundation Trust
- PI89 *Supporting second degree students. Are we doing enough? An update from one year on* – Dr Jonathan Dennis, Queen's Medical Centre
- PI90 *Surgical Followership Know Your Style* – Miss Marnie Fullarton, Aintree University Hospital
- PI91 *A Case Report of Surgical Management of An Ectopic Mandibular Third Molar - The Importance of Lateral Thinking* – Dr Mishaal Gill, Aintree University Hospital
- PI92 *Missing out on the money: An audit of clinical coding in maxillofacial surgery* – Mr Jahrad Haq, St George's Hospital, London
- PI93 *HIV and the Oral and Maxillofacial Surgeon* – Mr Alexander Hills, William Harvey Hospital, Kent
- PI94 *Bony Hard Neck lumps - a review* – Mr Nabeel Ilyas, Queen Alexandra Hospital, Portsmouth
- PI95 *Does your face fit? Facial morphology as a predictor of success in UK & US general elections* – Mr Shofiq Islam, East Midlands Deanery
- PI96 *Tip Sparing Tongue Necrosis: A Case Report* – Dr Ian Jenkyn, University Hospital Southampton
- PI97 *Uncommon cause of progressive proptosis in a paediatric patient* – Mr Predrag Jeremic, Manchester Royal Infirmary
- PI98 *Developing a European-wide smoking cessation e-learning tool for healthcare professionals* – Mr Ross Keat, Birmingham Community Healthcare NHS Foundation Trust
- PI99 *How has the new junior doctor contract changed opinions on oral and maxillofacial training amongst current and prospective trainees?* – Mr David Laraway, University Hospital Aintree
- P200 *Comparison Between The UK Oral Surgery Specialist Held By The GDC 2016 and 2017* – Mr Patrick Magennis, Aintree University Hospital
- P201 *In 2017 Oral & Maxillofacial Surgery (OMFS) trainees and consultants reverse the previous trend of letting their dental registration lapse* – Mr Patrick Magennis, Aintree University Hospital
- P202 *Oral and Maxillofacial Surgery (OMFS) Trainees - Their Training Rotations and Their Consultant Appointments - Do they stay or do they go?* – Mr Patrick Magennis, Aintree University Hospital
- P203 *A Review of OMFS Training of European Nations Whose Specialists Have Automatic Entry Onto the UK OMFS Specialist List* – Mr Patrick Magennis, Aintree University Hospital
- P204 *Pilot of Formative MCQ for Trainees Aiming for and currently in OMFS Training - A useful tool for education and ranking* – Mr Patrick Magennis, Aintree University Hospital
- P205 *Utilisation of CBCT in Maxillofacial Department of Leicester Royal Infirmary Hospital* – Mr Antonios Mantevas, Leicester Royal Infirmary
- P206 *Dentist on the Ward - Should Dental Core Trainees cover Night Time On Call Duties?* – Miss Katy Martin, Luton and Dunstable University Hospital
- P207 *Learning from disaster: Creating the conditions for safety improvement using peer review as a catalyst for change* – Mr Paul McArdle, Plymouth Hospitals NHS Trust
- P208 *The Use and Application of Lasers in Oral and Maxillofacial Surgery* – Mr Oliver Mitchell, Salisbury District Hospital
- P209 *Maxfacts – the working of a novel comprehensive online resource* – Mr David Mitchell, Calderdale & Huddersfield NHS Foundation Trust
- P210 *Is PAR scoring an acceptable method of measuring outcomes for orthodontically treated hypodontia patients?* – Miss Charlotte Molyneaux, Salisbury NHS Foundation Trust
- P211 *Glomus tumour presenting in the upper lip- a case report* – Mr Liam Monaghan, Royal Albert Edward Infirmary / Central Manchester Foundation Trust
- P212 *Nasal Septal Abscess - An Unusual Complication Arising from an Odontogenic Infection in a 10-Year-Old* – Dr Susan Murray, Aberdeen Royal Infirmary
- P213 *What is posterior tongue tie?* – Miss Danai Nyoni, Southend
- P214 *Tongue Tie- is it related to Gastrointestinal Problems?* – Miss Danai Nyoni, Southend Hospital
- P215 *Thyroidectomy in the treatment of thyroid disease: A review of the indications for surgery and pathologies identified in 340 patients* – Mr Janak Patel, Torbay and South Devon NHS Foundation Trust

- P216 *From shortened dental degree to OMFS consultancy: Evaluation of the outcome of the first 5 years of the King's College London Dentistry Programme for Medical Graduates course* – Mr Andrew Rajkumar, King's College London
- P217 *Indicative Numbers for Maxillofacial Training in the UK - Are we at Par?* – Mr Sajid Sainuddin, University Hospital of South Manchester
- P218 *Selective venous sampling as a primary investigation prior to parathyroid surgery* – Mr Rupert Scott, Derriford Hospital
- P219 *Bilateral symmetrical lipomatosis in MERRF Syndrome: A case report and review of the literature* – Mayank Shastri, Queen Victoria Hospital, East Grinstead
- P220 *The life and contributions of Professor Henry Percy Pickerill* – Miss Deepti Sinha, University Hospitals Leuven
- P221 *Inspiring a career in OMFS - a medical student's experience of cadaveric head dissection* – Mr Harry Spiers, St George's, University of London
- P222 *Quality improving the provision of the division of ankyloglossia for infants with breast feeding difficulties* – Dr Neil Tanna, Northampton General Hospital
- P223 *A new website for communication and collaboration between OMFS fellows in training (FiTs)* – Mr John Paul Wells, Morrision Hospital, Swansea
- P224 *Turning your handover sheet into a maxillofacial database. Facilitating audit, research and revalidation* – Mr John Paul Wells, Morrision Hospital, Swansea

ORAL MEDICINE/PATHOLOGY P225-P245

- P225 *A case of oral Kaposi's sarcoma in a patient with undiagnosed HIV* – Miss Christine Causey, Kettering General Hospital
- P226 *Kimura's Disease as an Unusual Presentation of Bilateral Cervical Lymphadenopathy: Our management and a review of the literature* – Mr Rohit Chandegra, University Hospital Coventry and Warwickshire
- P227 *Trauma, Infection and the Immunocompromised Patient - A vicious triad causing a destructive oro-facial lesion* – Mr Montey Garg, Queen Victoria Hospital, East Grinstead
- P228 *Low level laser therapy in oral graft-versus-host Disease: A case report* – Mr Daniel Gillway, Barts Health NHS Trust
- P229 *Mandibular Tuberculosis Mimicking Squamous Cell Carcinoma* – Dr Sandra Girgis, Homerton University Hospital NHS Foundation Trust
- P230 *Granulomatosis with polyangiitis presenting as submandibular gland necrosis and sepsis* – Dr Peter Glen, The University Hospital of Wales
- P231 *Inotrope-induced necrosis of facial skin and oral mucosa - a rare occurrence* – Dr Sima Jannati, Royal London Hospital
- P232 *A Study of Clinical-pathological Agreement of Intra-oral lesions in the Maxillofacial Department* – Mr Ahmed Jebriil, Queen's Medical Centre
- P233 *A Case Report of recurring Traumatic Ulcerative Granuloma with Stromal Eosinophilia (TUGSE) in a 6-year-Old Child* – Miss Laura Johnston, Homerton University Hospital
- P234 *Foreign body reaction to Alvogyl* – Mr Sandeep Joshi, Eastman Dental Hospital
- P235 *Osteomyelitis of the Head and Neck* – Mr Abhishek Kalia, Kings's College Hospital
- P236 *A rare mandibular presentation in multiple myeloma* – Mr Grigore Mihalache, Shrewsbury and Telford Hospitals NHS Trust
- P237 *Intravascular papillary endothelial hyperplasia of oral the cavity - uncommon or undiagnosed?* – Dr Shadaab Mumtaz, Homerton University Hospital NHS Foundation Trust
- P238 *A rapidly expansive recurrent fibroepithelial polyp of the anterior maxillary gingiva - a case report* – Dr Shadaab Mumtaz, Homerton University Hospital NHS Foundation Trust
- P239 *A Case report on the diagnosis and management of florid cemento-osseous dysplasia with cystic degeneration over 14 years* – Dr Jitesh Patel, William Harvey Hospital
- P240 *A service evaluation of post-operative biopsy complications and patient information leaflets (PIL) in the Oral Medicine Department at Guy's Hospital* – Dr Risha Sanghvi, Guy's and St Thomas' NHS Trust
- P241 *An unusual presentation of a common oral condition: A case report of oral lichen planus* – Dr Risha Sanghvi, Guy's and St Thomas' NHS Trust
- P242 *Gardners Syndrome: An overview and Case report* – Mr Matthew Smith, University Hospital South Manchester
- P243 *Case report: A Previously Missed Diagnosis of Amyloidosis* – Dr Hazel Taylor, Guy's Hospital
- P244 *Metastasising Pleomorphic Adenoma: A rare case report of a pleomorphic salivary adenoma with synchronous cervical lymph node metastases* – Miss Melanie Watson, St John's Hospital, Livingston, Scotland
- P245 *Plasma Cell Gingivitis - Does it still exist?* – Mr Joe White, Wythenshawe Hospital

ORTHOGNATHIC P246-P264

- P246 *Virtual Orthognathic Planning Using the TruMatch® System: our Experience of 27 cases* – **Mr William Allen**, Aintree University Hospital
- P247 *Patient satisfaction following orthognathic surgery* – **Mr Sankar Ananth**, Morrision Hospital, Swansea
- P248 *An Audit Investigating BMI and the Prevalence of Obesity in Orthognathic Patients: Are we putting patients at risk?* – **Miss Sarah Baughan**, Royal Derby Hospital
- P249 *Results of the National Facial, Oral and Oculoplastic Research Centre (NFORC) assessment of patients undergoing orthognathic surgery* – **Miss Holly Boyes**, St George's Hospital
- P250 *A 12 year retrospective review of Orthognathic Surgery at Northwick Park Hospital (2004-2016)* – **Miss Soudeh Chegini**, Northwick Park Hospital
- P251 *Day Case Bilateral Sagittal Split Osteotomies (BSSO): an audit and review of clinical practice at the Royal Gwent Hospital, Newport* – **Dr Laurie Davies**, Royal Gwent Hospital
- P252 *Orthognathic Surgery in the Older patient - are the complications higher?* – **Miss Barbara Gerber**, Oxford University Hospitals NHS Foundation Trust
- P253 *Splintless Orthognathic Surgery using Virtual Planning and Patient Specific Printed Titanium Cutting Guides and Osteosynthesis Plates: A case report and review of the technology* – **Miss Kate Howson**, Aintree University Hospitals
- P254 *Social Return On Investment (SROI) methodology applied to patients following orthognathic surgery* – **Mr Greg Knevil**, Gloucester Hospitals NHS Trust
- P255 *The potential scarring following use of a transbuccal trocar during orthognathic surgery* – **Dr Hannah Linnard**, Queen Victoria Hospital
- P256 *Haemolacria a rare complication of Lefort I surgery* – **Mr Ramachandra Madattigowda**, Northwick Park Hospital, London
- P257 *What do patients want to know before orthognathic surgery? A mixed method qualitative needs assessment* – **Ms Jaina Patel**, Queen Elizabeth Hospital Birmingham
- P258 *Changes to the Nasopharyngeal and Oropharyngeal Spaces After Isolated Maxillary Advancement* – **Miss Lisa Rennie**, Queen Victoria Hospital, East Grinstead
- P259 *A 12 year retrospective review of Outcomes in Orthognathic Surgery (2004-2016)* – **Miss Neha Shah**, Northwick Park Hospital
- P260 *Prevalence of Infections Following Orthognathic Surgery at Mid-Yorkshire Hospitals Trust and risk factors contributing to this* – **Dr Paula Sinnott**, Pinderfields General Hospital
- P261 *Is it justifiable to admit Orthognathic surgical patients for less than 23 hours? A single surgeon's experience* – **Dr Paula Sinnott**, Pinderfields General Hospital
- P262 *An Audit of Postoperative Complications following Orthognathic surgery at Mid-Yorkshire Hospitals Trust* – **Dr Paula Sinnott**, Pinderfields General Hospital
- P263 *3D orthognathic surgery protocol evaluation* – **Mr Stefano Stea**, Maria Cecilia Hospital, Cotignola (RA), Italy
- P264 *The impact of fixation method selection on neurosensory disturbance following bilateral sagittal split osteotomy* – **Dr Naren Thanabalan**, University Hospitals Coventry and Warwickshire NHS Trust

QUALITY OF LIFE P265-P274

- P265 *Differences in health related quality of life in T1N0 oral squamous cell Carcinoma: Selective neck dissection compared to wait and watch* – **Miss Sally Al-Ali**, Aintree University Hospital
- P266 *Evaluating an NHS service provided for facial palsy patients measuring quality of life, facial attractiveness and patient satisfaction* – **Mr Omar Alimazighi**, Royal Hallamshire hospital
- P267 *Exploring the relationship between Resilience and Quality of Life in Head and Neck cancer patients* – **Mr George Clarke**, University Hospital Southampton
- P268 *Long-term clinical outcomes of extra-oral (non-dental) osseointegrated implants following ablative surgery for orofacial neoplasia* – **Mr Jonathan Collier**, Chelsea & Westminster Hospital
- P269 *Awake emergency tracheostomy - Is it an ethical treatment modality for end of life patients?* – **Dr Sandra Girgis**, Homerton University Hospital NHS Foundation Trust

- P270 *Modified Tie Over technique for lingual sulcoplasty* – Mr George Markose, Pennine Acute NHS Trust
- P271 *An update on the use of the Pre-treatment Patient Concerns Inventory (PCI) in a tertiary centre* – Mrs Stephanie Milne, Leeds Teaching Hospitals NHS Trust
- P272 *Ternary graphs - a new interactive approach to self-assessment* – Mr David Mitchell, Calderdale & Huddersfield NHS Foundation Trust
- P273 *Patient experience of flap monitoring following free flap surgery for oral cancer reconstruction* – Miss Hira Nazir, Aintree University Hospital, Liverpool
- P274 *The development of a searchable database (HaNDLE-on-QoL) on quality of life in head and neck cancer* – Mr Robert Wotherspoon, Leeds Teaching Hospitals NHS Trust

RESEARCH P275-P286

- P275 *Workforce planning in Oral & Maxillofacial surgery* – Mr Mohammed Bajalan, King's College London, Dental Institute
- P276 *Undergraduate medical and dental student awareness of oral cancer and referral pathways* – Mr Jasdeep Brar, King's College London
- P277 *Exploring The Learning Needs of Dental Core Trainees (DCTs) in Oral & Maxillofacial Surgery: A National Trainee Survey* – Miss Emma Brown, Prince Charles Hospital, Merthyr Tydfil
- P278 *How new NICE guidelines will impact service provision in patients treated for early oral cavity squamous cell carcinoma - a ten-year single centre retrospective review* – Mr Ioan Davies, St Georges University Hospitals
- P279 *What factors influence the surgical time of wisdom teeth extractions under General Anaesthetic?* – Dr Oliver Dugena, University Hospital, Leicester
- P280 *Run-through OMFS training at ST1 versus conventional Core Surgical Training (CST)* – Mr Montey Garg, Queen Victoria Hospital, East Grinstead
- P281 *Inpatient management of cervicofacial infection: A multicentre UK-wide snapshot audit of current maxillofacial practice* – Ms Anusha Hennedige, Central Manchester Foundation Trust
- P282 *A Review into the utilisation of the 2-week-waiting oncology pathway for intra-oral lesions in the Maxillofacial Surgery Department* – Mr Ahmed Jebriil, Queen's Medical Centre, Nottingham
- P283 *Inpatient management of cervicofacial infection: a multicentre uk-wide snapshot audit of current maxillofacial practice* – Mr Christopher McDonald, Aintree University Hospital
- P284 *Changing OSCE stations at lunchtime during all day postgraduate surgery examinations improves examiner morale and stress* – Mr Duncan Scrimgeour, University of Aberdeen and Aberdeen Royal Infirmary
- P285 *Resorbable magnesium implants for the individual reconstruction of bony defects in the head and neck area - an in vitro evaluation* – Professor Ralf Smeets, University Medical Center Hamburg-Eppendorf; Department of Oral and Maxillofacial Surgery
- P286 *3D printing of mandibular condyle anatomical models using low cost fused deposition modelling* – Dr Subegh Srao, Boroughbridge Dental Centre/York Scheme

P287 – P293 SALIVARY GLANDS

- P287 *Recurrent pleomorphic salivary adenoma in submandibular gland* – Dr Sarah Ali, Homerton University Hospital
- P288 *Sporting Injuries - An Unusual Case Traumatic Schwannoma presenting on the upper lip of a professional footballer - A Case Report* – Dr Mohamed Hania, Leeds General Infirmary
- P289 *Floor of Mouth Swelling - A rare case report: Epidermoid cyst presenting in the floor of the mouth* – Dr Mohamed Hania, Leeds General Infirmary
- P290 *Sialoendoscope assisted late repair of a traumatic transection of Stensen's duct* – Mr Chang-Bon Man, Luton & Dunstable University Hospital
- P291 *An unusual cause of a parotid mass; Osteomyelitis and sequestra of the mandibular ramus secondary to recurrent pericoronitis* – Mr Chang-Bon Man, Luton & Dunstable University Hospital
- P292 *A Rare Case of Secretory IgA Deficiency causing Chronic Sialadenitis* – Dr Farnaz Motamedi-Azari, Guy's and St Thomas'
- P293 *Mucus Extravasation cyst as a complication of lingual frenectomy* – Ms Susan Stokes, Oxford University Hospital

TEMPORO MANDIBULAR JOINT (TMJ) P294 – P307

- P294 *Temporomandibular joint reconstruction using 3D printed prosthesis in bilateral ankylosis patient - a case report* – Mr Anwer Abdullakutty, Queen Victoria Hospital, East Grinstead
- P295 *Synovial chondromatosis of the temporomandibular joint with intracranial extension: a case report* – Dr Zakiya Ahmed, Queen's Medical Centre
- P296 *Resorption of the mandibular condyle following paralysis of masticatory muscles induced by Botulinum Toxin: A case report* – Dr Jeyan Aziz, Great Ormond Street Hospital and University College Hospital
- P297 *Piezo-electric surgery for re-ankylosis of temporomandibular joints on the Mercy Ships in West Africa* – Mr Leo Cheng, St Bartholomew's, Royal London & Homerton University Hospitals
- P298 *Audit of TMJ Arthrocentesis at SGH Glasgow* – Mr Mohamed Elsapagh, University of Birmingham
- P299 *TMJ Arthroscopy: Can it Help to Predict the Progression to Open Surgery and what are the Therapeutic Benefits?* – Dr Benjamin Gupta, Queen's Medical Centre, Nottingham
- P300 *Creation of a Care Pathway for Temporomandibular Joint Dysfunction (TMD) at a Tertiary Referral Centre* – Dr Nina Kelman, St George's Hospital
- P301 *An audit to assess patient outcomes in temporomandibular joint replacement surgery at Poole Hospital* – Dr Shriya Nair, Poole Hospital
- P302 *Low level laser therapy (LLLT) in the treatment of a mixed cohort of patients with Temporomandibular Disorders (TMD): A case series* – Mrs Annapoorna Y Pai, Cumberland Infirmary
- P303 *Temporomandibular Joint Dysfunction due to an elongated articular eminence* – Dr Parmar Paras, Luton and Dunstable Hospital
- P304 *A service evaluation measuring compliance to conservative management with soft splint therapy and outcomes in patients suffering from temporomandibular disorder (TMD)* – Dr Sarah Sheik, Birmingham Dental Hospital
- P305 *Retrospective analysis of hypersensitivity reaction to metal in patients listed for total replacement of the temporomandibular joint* – Dr Hao-Hsuan (Mark) Tsai, Royal Dental Hospital of Melbourne
- P306 *A simple TMJ (temporomandibular joint) arthrocentesis trainer* – Miss Elizabeth Yeung, King's College Hospital
- P307 *Hand Held Psychiatry for Temporomandibular Disorders (TMD)* – Miss Elizabeth Yeung, King's College Hospital
