GLASGOW PERIPROSTHETIC INFECTION CONFERENCE

Periprosthetic joint infection (PJI) is one of the most challenging and frequent complications after lower-extremity joint (hip and knee) arthroplasty.

The inaugural Periprosthetic Conference has an internationally renowned faculty who will discuss all aspects of periprosthetic joint infection including basic sciences, diagnosis, clinical features and the necessity of a multidisciplinary approach.

Who should attend?

- *Consultant Orthopaedic surgeons*
- *Orthopaedic trainees*
- *Microbiology specialists*
- *Infectious disease specialists*
- *Arthroplasty nurse specialists*
- *Arthroplasty physiotherapists*

Venue

Royal College of Physicians and Surgeons of Glasgow

Date

Thursday 25 October 2018
