Tel no: 01745 534733

Aims

A 2 day course for maxillofacial surgeons on orthognathic planning and surgery. By the end of the course, the aim is to have increased confidence in the assessment and planning of patients for orthognathic surgery, orthodontic and surgical considerations for success and have a good understanding of the possible errors in planning and their avoidance.

Teaching format

Didactic lectures

Small group teaching – faculty/participant ratio 1:1

Practical demonstrations

Informal discussion of topics from many perspectives

Organisers

Miss E Woolley, Maxillofacial Surgeon, North Wales

Invited faculty include:
