

If you are interested in BAOMS MSP...

Consider completing the Taste of OMFS programme. It will help in your discussions with an OMFS Training Programme Director (TPDs) or the national MSP TPD via the BAOMS office. These TPDs are the gate-keepers for entry to MSP. They want to support people who are genuinely interested in a career in OMFS. Support and mentoring is a lot of work!

If they support your application you will be welcomed into the MSP Programme.

Taste of OMFS – a trainee led checklist of OMFS activity

if you are considering applying for the BAOMS MSP, please take a moment to look at the Taste of OMFS information at https://www.baoms.org.uk/professionals/taste_of_omfs.aspx.

Membership of BAOMS is not required for this trainee led programme of activity. There is a checklist of online learning and OMFS experience aimed at trainees in any post and at any stage of their career. To receive a letter of acknowledgement of participation/completion from the BAOMS President, the checklist is verified by an OMFS trainer or trainee. This also means that the participant speaks to an OMFS surgeon face to face or on-line.

Everyone considering a career in OMFS should try to participate or complete this Taste programme.
