NHS England | BAOMS | FlexFacs

## PGVLE access for OMFS NTN Trainees (ST1-ST7)

Trainees have now been provided access to the PGVLE platform. For those who haven't registered, please use the QR code below to do so.

## FlexFacs OMFS Virtual Quiz Day

**Date:** 24 April 2026

**Time:** 9am to 5pm

**Speakers:** Several Consultant Oral and Maxillofacial Surgeons (Details in the programme flyer)

**Title:** FlexFacs OMFS virtual quiz day

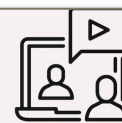

**Registration link:** Through BAOMS/FiT group/ QR code in newsletter

## FlexFacs OMFS Quiz day

Single Best Answer (SBA) assessments remain one of the most effective ways to consolidate knowledge and sharpen clinical judgement. By actively engaging with structured questions, participants enhance decision-making skills essential for modern OMFS practice.

The FlexFacs Quiz Day 2026 is open to all BAOMS members and is particularly valuable for OMFS specialist trainees preparing for examinations. The day will begin with a **120-question online SBA assessment**, to be completed over two hours from your own environment during the live session.

**Flexfacs**

UK OMFS National Online Training Programme

Following a short break, a panel of **12 expert clinicians** will review the questions in detail, offering structured explanations, key learning points, and practical clinical insights. Participants will receive **5 hours of verifiable CPD**, making this both a rigorous academic exercise and a valuable professional development opportunity. We look forward to another engaging and educational session.

### Aim:

To enhance participants' understanding of key curricular modules in Oral and Maxillofacial Surgery (OMFS) through an interactive, quiz-based learning approach that promotes engagement, knowledge retention, and professional development.

### Objectives:

1. **Deliver a comprehensive 120-question quiz** covering key OMFS topics, including trauma, oncology, aesthetics, TMJ disorders, and dentoalveolar surgery.
2. **Assess participants' knowledge and competency**, identifying strengths and areas for improvement.
3. **Reinforce learning** through detailed explanations and discussions, promoting critical thinking and problem-solving.
4. Encourage professional networking and continuous education, supporting lifelong learning in OMFS.

### Learning Outcomes:

By the end of this session, participants will be able to:

1. **Demonstrate a strong understanding of key OMFS topics** and assess their own knowledge, identifying areas for further development.
2. **Apply critical thinking and clinical reasoning** through quiz discussions, reinforcing key concepts and promoting continuous learning.

Don't miss this interesting online session.
