FlexFacs study day

**Host: Mr Montey Garg
National Online Training Programme
Director OMFS**

24 April 2026: FlexFacs Virtual OMFS Quiz Day

Join us for a day of learning, discussion and excellence

- Quiz-style Single Best Answers (SBA) Assessments play a crucial role in the learning process and are powerful tools for learning, offering benefits such as active engagement and contribute significantly to a learner's overall comprehension and application of knowledge in both educational and professional contexts.
- This study day is open to all BAOMS members and it will be particularly useful to the OMFS specialist trainees.
- The day will commence with an online quiz. The participants will be tested virtually. They will have to answer 120 questions in two hours in their own environment. There is a prize for the top scorer along with a certificate from the BAOMS FlexFacs team.
- Following a break, the second half of the day will focus on answers of the quiz discussed by 12 expert clinicians.
- There are 5 verifiable CPD hours for all those who attend the day.
