

UK National Flap Registry (UKNFR)

UKNFR Counts on 27 May 2020

Total Procedures: **6824**

Surgeons actively entering data in UKNFR: **211**

Hospitals Using UKNFR: **111**

First UKNFR report

1. UKNFR First Report, funded by BAPRAS, was published on 4 December 2019.
2. The report was received to wide acclaim by ICOPLAST and other national plastic surgery societies.
3. 200 copies of the glossy hardback report have been distributed to Chief Executives and key stakeholders.

Covid-19 Impact

1. With the onset of Covid19, **flap numbers entered into UKNFR have fallen significantly**, as a result of priority 3 and 4 surgery including breast reconstruction being halted in March. Flaps currently being performed are for H&N oncology reconstruction (priority 2) and Lower/ upper limb trauma (priority 1).
2. **Covid-related data entries have been added into UKNFR** in the last few days, to enable data collection regarding swab positivity pre-operatively, at discharge and the incidence of development of Covid19 in the post-operative period. This should help us to monitor if peri-operative outcomes are more adversely affected in the *Covid-negative vs. Covid-positive* groups.
3. Monthly case numbers dropped to an all-time low of 54 in the month of April. Cases are expected to increase in the future months as the NHS moves into the recovery / restoration phase. However, these are unlikely to reach levels seen in 2019.
